DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Future Scope of Data Science

Student Session

A guest lecture on “Future Scope of Data Science” was organized by the department of CSE on 1st August 2019. Dr Arul Joseph, Professor, Fu Jen University facilitated the lecture. Third year Students of both CSE and IT department students participated in the lecture and got benefitted. He spoke about the scope of data analytics in various real time applications. The speaker highlighted the various stages in Data Analysis.

Faculty Interaction

The faculty of CSE & IT also had an interaction session with Prof Arul Joseph on the Research Collaboration. The session was very useful as it highlighted the possibilities of doing research at Taiwan. The possibility of setting up labs to help our students was also discussed. Professor also highlighted the different areas of research that the Government of Taiwan and Industries are looking forward to collaborate.
