### Google Cloud Career Readiness Program

The **Google ACE Readiness Program** was organized at LICET on **5<sup>th</sup> August 2019**. **Mr Mathang Seshagiri, Google Cloud Program Head, Google India** was the key person who facilitated the session. Two Google Cloud trainers **Ms Nidhi Shrimali** and **Mr Krunal Ambodkar** assisted him. III & IV year students of CSE and IT departments attended the training session. The session started with brief introduction of cloud and Qwiklabs which gave the basic guidelines for cloud computing. The session contained five quests.

The first quest is creating a virtual instance using GCP Console.

The second one is to create a virtual machine using cloud shell commands.

The third quest is an introduction to GCloud commands and creating environmental variables.

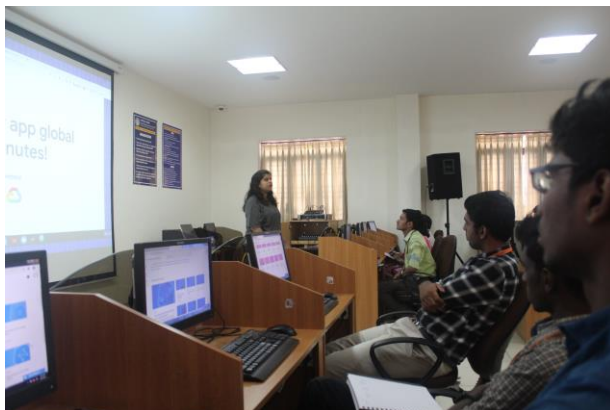

The fourth, is creating HTTP rules and setting up a load balancer.

The final one is a game which was about Kubernetes.

The students secured two Qwiklabs badges which were added to their LinkedIn account.

They have registered for a course on Coursera for 16 weeks as a part of the training.

This workshop will be very useful for the students to appear for Associate Cloud Engineer Certification Exam.
